

Arbon Community Meeting

There will be a meeting for the Arbon Residents on February 28th at 6:00pm at the Arbon Elementary School.

The items for discussion will be the creation of a fire district and a community center.

There will be a lot of ideas to cover and a lot of discussion on these topics, thus we would like to start on time. The presentation will take about 1 hour. Many people have expressed ideas of what they would like to have in such a building. These ideas have been put together and we would like your input.

County commissioner's and the Power County EMS Director are panning on attending.
